IDEATION PHASE

Brainstorm & Idea Prioritization Template

Date	23 September 2026
Team ID	24bcs020@mscartsandscience-edu.in
Project Name	AI Fittrack
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

1 Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

- **10 minutes** preparation time
- Gather project goals & team scope

2 Team Gathering

Define who should participate in the session and send an invite. Share relevant information on **AI Fittrack** ahead of time.

- Invite developers, designers & domain experts

3 Define Problem Statement

Frame problem as a *"How Might We"* statement for fitness tracking.

"How might we leverage AI to provide personalized, real-time posture correction & automated fitness routine adjustments for home workout users?"

Key Rules of Brainstorming:

- Stay on topic
- Encourage wild ideas
- Defer judgment
- Listen to others
- Go for volume
- Be visual & collaborative

Step-2: Brainstorm, Idea Listing and Grouping

Members submitted initial features and capabilities for **AI Fittrack**, which were then grouped into core module clusters.

Computer Vision & Form	Personalized AI Coach	Nutrition & Recovery	Gamification & Social
Real-time posture feedback via mobile camera	Adaptive workout planning based on fatigue	AI food snap calorie estimation	Virtual fitness peer challenges
Rep counting using skeletal tracking	Voice assistant providing live audio cues	Sleep & recovery score sync	AR trophy cabinet & progress badges
Joint angle warning alerts	Injury prevention auto-scale back	Hydration reminders based on activity	Community streak leaderboards

Step-3: Idea Prioritization Matrix

Evaluating top AI Fittrack features on an **Feasibility vs. Importance** matrix to identify high-value MVP functionality.
